BONITA THEATRE
Refined Photoplays

AMUSEMENTS

Elite to Reopen.
Lovers of good pictures and especially good music, will be glad to learn that the Elite theatre which has been closed for a few weeks to allow certain alterations will open its doors again coming Monday, Aug. 5. An extra fine program has been arranged for the opening but Managers Seel and Pfeiffer state that this program will be but a sample of the programs to be offered to the patrons of the Elite every day thereafter.

The best motion pictures obtainable have been secured to constitute the most delightful picture program ever viewed in Pensacola, but the "piece de resistance" will be the orchestral music in which the Elite has always excelled. The orchestra will consist of eight musicians, every one an artist, who will render popular and classical selections under the capable leadership of Prof. Henry Seel. The music alone will be a feature which will raise the show at the Elite to a considerably higher plane than picture shows generally can boast of.

The management has also succeeded in engaging Mr. Elmer Jerome, who comes to Pensacola with the reputation of being a lyric tenor of rare ability and a personality that will be of considerable help in making him the favorite of picture show patrons.

Rub-My-Tam will cure you.

"What is the first step toward remedying the discontent of the masses?"
"The first step," replied the energetic campaigner, "is to get out and make speeches to prove to them how discontent they are."—Washington Star.

TOWATERFRONT RATS EXAMINED BY DR. MILLS

TWENTY-NINE IN ALL WERE DELIVERED TO BACTERIOLOGIST BUT NO INDICATIONS OF BUBONIC PLAGUE FOUND.

When a representative of The Journal dropped in at the state bacteriological laboratory at the city hall yesterday afternoon he found Dr. Mills in a more optimistic mood concerning the rat campaign and considerably encouraged as during the day twenty-nine rats had been examined, this being the largest number delivered to the bacteriologist in several days, and ten of these came from within two blocks of the waterfront.

This is the first lot of rats from anywhere near the waterfront and while nothing indicating bubonic plague bacilli was discovered, it showed that some interest had been aroused in this quarter and the doctor feels more like consuming the time in examining specimens from this territory and has been urging the campaign to be waged in this section.

Dr. Mills said yesterday afternoon that he hoped that because nothing suspicious had been found that people would not lose interest, as this was no indication that something might not be found later. Statistics, he said, show that even in the cities in which the plague is known to exist only a very small percentage of the rats examined show any signs of being infected.

Dr. Mills quoted statistics showing that during a certain period more than 80,000 rats were examined in San Francisco without an infected one being discovered, when suddenly a number were examined which were found to be infected.

Dr. Mills urged everybody to take more interest in the campaign and wage relentless war on the rodents.

BIG STEAMERS COMING HERE TO LOAD CARGO

THREE LEAVE DIFFERENT PORTS ON THE GULF TODAY FOR THIS PORT, WHERE THEY WILL TAKE LUMBER AND TIMBER.

Three steamers are due to leave as many ports today for Pensacola, where they will load general cargo, including lumber and timber for foreign countries. All are large vessels and have aboard part cargoes.

The Strathgry will sail this morning from Port Inglis, where she has taken on a part cargo of phosphate rock.

The Median, which has loaded some cargo in Mobile, is due to leave that port during today, arriving here tomorrow morning.

The Monviso is the third vessel. She is coming from Galveston and will get away from that port during today.

All of the steamers are consigned to Jno. A. Merritt & Co.

WILL SPEND A FEW DAYS HERE

T. W. MITCHELL, OF LANCASTER, PA., ARRIVES IN PENSACOLA ON A SHORT VISIT TO HIS BROTHER.

T. W. Mitchell, of Lancaster, Pa., who is interested in the tobacco industry in that place as well as in Quincy, Fla., arrived in the city last night and will spend a short time in the city on a visit to his brother, R. F. Mitchell.

Mr. Mitchell proposes to put in most of his time fishing and will start on his first trip this morning. He is a member of the firm of the Mitchell-Foshoe Tobacco Co., of Quincy, and of the Mitchell & Ollinger Co., of Lancaster, Pa. He was among the men who developed the shaded tobacco industry at Quincy.

LARGE CARGO SAWN TIMBER

THE STEAMER LUCHANA CLEARS FOR LONDON WITH 2,699,954 SUPERFICIAL FEET OF LUMBER AND TIMBER.

One of the largest cargoes of lumber and timber to go out from Pensacola during the last several months is that of the British steamer Luchana, which was cleared by Rix M. Robinson yesterday for London.

The steamer has aboard 1,814,364 superficial feet of sawn timber and 885,590 superficial feet of lumber, making a total of 2,699,954 feet.

SOCIETY

(Continued from Page Five.)

several trips to Birmingham and is very much pleased with the Magic City.—Birmingham Ledger.

LEFT FOR NASHVILLE.

Mrs. J. W. Eley and daughter, Miss Lillie Eley, of this city, left yesterday for Nashville, Tenn., where they will spend two months visiting relatives. Mr. Eley will join them a few weeks before they return. They are originally from Nashville, but have made Pensacola their home for the past fifteen years.

MRS. G. W. OWEN VISITING IN MOBILE.

Mrs. G. W. Owen and daughter, Miss Grace Owen, are visiting relatives and friends in Mobile. They are well known socially here, as Mobile was the former home of Mr. and Mrs. Owen, previous to their coming to Pensacola.

WELL KNOWN NEWSPAPER WOMAN TO MARRY.

With the announcement made in these columns last Sunday of the engagement of Miss Lillie Converse to Mr. W. E. Yelverton, her connection with this department of The Telegraph ended, by her own volition. Her newspaper career, although comparatively brief, has been brilliant, says The Mason Telegraph. Particularly her special articles and her dramatic criticism have been of a high order. She brought to her work a genius which was illuminating.

The announcement of this engagement is of peculiar interest to this office, because it was here they met and agreed to mate.

Mr. Yelverton was for a long time the sporting editor of The Telegraph, and then the state news editor. He is now the managing editor of The Raleigh News and Observer. He is one of the bright young newspaper men in the south.

The newspaper woman has become an institution and she is here to stay. It is to be hoped and expected that Miss Converse's transfer from one newspaper to another will only add to her opportunity for further development in a field for which she is so talented.

PERSONAL MENTION

Misses Pearl Mackey and Catherine Steward are spending a few days at Molino before returning to their home at Roberts, Florida.

WOMEN TAKE NOTICE!

A man cannot understand the torture and suffering many women endure uncomplainingly. If the majority of man suffered as much pain and endured with patience the weakening sicknesses that most women do, they would ask for immediate sympathy and look for a quick cure.

Many women have been saved from a life of misery and suffering by turning to the right remedy—Dr. Pierce's Favorite Prescription—a remedy which is safe to take because contained no narcotics, alcohol or injurious ingredients. It is an alternative extract of roots, made with pure glycerin, and first given to the public by that famous specialist in the diseases of women—Dr. R. V. Pierce, of the "Lavalis" Hotel and Surgical Institute of Buffalo, N. Y.

Mrs. Lura M. Hazzard, of Lincoln, Neb., 100 "C" St., says: "I had a special trial with much pleasure of your remedy. I was a great sufferer from female troubles but after taking one bottle of Dr. Pierce's Favorite Prescription, which I found advised me to take, I found myself very much improved. After taking three more bottles, and using two boxes of Dr. Pierce's Lotion Tablets, I found myself on the road to recovery. I was in poor health for five years but now I am cured. I urge all women suffering from female weakness to give Dr. Pierce's Favorite Prescription a fair trial."

Doctor Pierce's Pleasant Pellets regulate and invigorate special functions and improve the general health.

The Most Successful Men Are Those Who Are Ahead of the Times

You can, at least, be up with the times and one of the greatest necessities of the present day is to handle your business accounts through a sound, safe banking institution—through such a bank, for instance as the

DR. LACEY MOFFETT TO REACH AT 11.

Dr. Lacey Moffett, recently home from China, where he spent eight years very fruitfully as a missionary, will speak at the Mission Home tomorrow night at eight o'clock. The public is cordially invited to hear the discourse of this able man.

A RESTAURANT PROPRIETOR IS UNDER ARREST

PETER DANIKAS IS CHARGED WITH LARCENY, THE AFFIDAVIT AGAINST HIM BEING MADE BY PROPRIETOR OF P. O. CAFE.

Upon the complaint of the proprietor of the P. O. Cafe, who swore out a search warrant and had the Busy Bee Cafe searched yesterday afternoon, Peter Danikas, proprietor of the Busy Bee Cafe, was arrested late in the afternoon on the charge of larceny. He made bond immediately after reaching the county jail and was released from custody.

The proprietor of the P. O. Cafe made affidavit to the effect that Danikas had purloined some of his silverware and after the search warrant was executed, it was alleged that some of the silverware had been found in the Busy Bee Cafe.

It is the claim of Danikas that the silverware came into his possession by being mixed at a certain place where he had delivered some meals. It is stated, while the proprietor of the other cafe claims that his cafe had never delivered any meals to the place mentioned.

RECORDER TRIED SEVENTEEN CASES

Although twenty-eight cases were on the docket for trial in the recorder's court yesterday morning, only seventeen of them were tried, the remaining eleven being continued. Three of the other defendants were discharged. The amount of the fines assessed aggregated \$46.

A BIG CANNING EXHIBIT OUT AT FERRY PASS

NUMBER OF INTERESTED SPECTATORS GATHERED AT HOME OF ED. JONES AND WATCHED MEMBERS OF GIRLS' TOMATO CLUB WORK AND ENJOYED FINE DINNER.

Members of the Ferry Pass Girls' Tomato Club No. 4 were the hostesses at another open air canning demonstration, which occurred yesterday at the home of Ed. Jones, at Ferry Pass, under the direction and supervision of L. W. Hardy, organizer of the club, and Miss Mary Bradley, the lady demonstrator in charge of the various clubs of the county.

Quite a number of spectators were present, some of them coming several miles in order to witness the demonstration, and the entire process from the time the fruits and vegetables were placed at the disposal of the girls until the cans had been sealed and labeled was watched with much interest by those present.

Every Member Present. Every member of the Ferry Pass club was present and took part in the demonstration. Besides these two members of the Roberts club were present and assisted in the canning. The Ferry Pass Club is composed of the following members: Vester Jones, Almada Jones, Charlotte Haynes, Pauline Haynes, Helen Jameson, Lillie Jones and Ella Mae Gates.

Several Articles Canned.

Yesterday's demonstration was a thorough one, showing the number of articles raised on the farms in this county which may be canned successfully and at a profit. Among the things canned by the class yesterday were tomatoes, okra, corn, peas, etc., besides a number of combinations, such as corn and tomatoes, etc.

Hardy and Lillard Talk. When the crowd had assembled for dinner, which was spread on a long table in the front yard, shaded by several beautiful spreading china trees, L. W. Hardy addressed the crowd briefly, complimenting them upon the interest manifested in this work and in agriculture generally.

Mr. Hardy called attention to the fact that practically everything on the table was a product of the farm and had been raised at home. This was true and the spread to which he referred was one of the most tempting that could possibly have been arranged. Mr. Hardy said this pleased him more than he could express, as there was nothing in which he was more interested than agricultural development.

N. J. Lillard, of the Interstate fair, was introduced and talked a few minutes on agricultural subjects, "Uncle Si," as he was introduced, made a good talk and urged the people to cooperate with Mr. Hardy in making the Escambia county agricultural exhibit at the fair this year the best one there. His talk was well received, but one statement he made caused a titter all around the table. This was when he apologized for talking so long and explained that he would rather talk about the fair than to eat. Nobody doubted that "Uncle Si" was interested in the fair, but the crowd he was addressing knew him and when he said he would rather talk than eat they could not refrain from smiling.

After Mr. Lillard concluded there was very little talking for sometime, everybody being busily engaged in doing justice to a dinner such as only the people of the Ferry Pass community know how to prepare.

Music and More Work. After dinner the crowd proceeded to the house, where they were entertained by Mr. Jones with a number of selections on the violin and piano music and singing by a number of the young ladies present.

Mr. Jones is quite an accomplished violinist, and a regular old-fashioned fiddler, too, and when he struck some of his lively airs, there was a perceptible shuffling of feet on the part of some of the more dignified members of the party and some of the pillars of the church decided it was time for them to get out and enjoy some more fresh air.

After enjoying the music for sometime, the class resumed the canning operations and a large quantity more of fruits and vegetables were canned.

Paying Business. Miss Bradley during the past week has clearly demonstrated that the canning business is not only a pleasant but a profitable one, and during this time, without the least inconvenience or interference with her work, she has made her canning outfit, which she recently purchased, pay for itself.

This is merely an illustration of what can be done by any family on an Escambia county farm, besides making use of a vast amount of product which would otherwise go to waste.

Canning Second Crop. One of the most valuable results of the demonstration yesterday was the information obtained by L. W. Hardy, concerning a certain piece of ground, showing the unlimited possibilities of Escambia county soil.

Mr. Hardy says that last spring J. E. Haynes planted one acre in onions, from which he gathered 200 bushels, which, by the way, is a splendid yield from an acre of ground considering the fact that during the past season the price of onions went as high as ten cents per pound wholesale. However, this was not all. On May 22 Mr. Haynes planted this same acre in corn and some of this crop of corn was canned yesterday during the demonstration.

Mr. Haynes did not select the ground especially for this purpose and what he did on this acre, it is believed, he could have done on every acre he cultivated.

QUAKERS AND THE D. D. D.'S WILL PLAY THIS AFTERNOON

The Quakers and the D. D. D.'s will cross bats this evening at 8 o'clock on the North Hill playground. Each team has won from each other and they are to play the last game of the series today, so a good game is expected. The Quakers have won thirty-four out of
